My sister is working in DC for the house majority leader. She was told today by someone in her office with connections inside the CDC that trump is going to invoke the Sheffield act and shut down the country on Tuesday. Pretty much all travel will be grounded, and all businesses except pharmacies, grocery stores, banks and gas stations are going to be closed. Let people close to you know so they can be prepared.

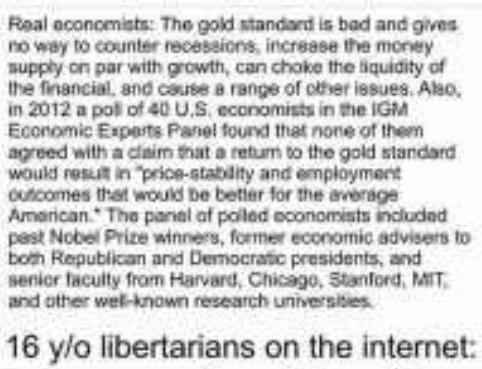
People who support the gold standard are economic masochists Anonymous ID:Rk/fIOgR
Mon 16 Mar 2020 06:46:15 No.248422388
View | Reply | Original | Report


Real economists: The gold standard is bad and gives no way to counter recessions, increase the money supply on par with growth, can choke the liquidity of the financial, and cause a range of other issues. Also, in 2012 a poll of 40 U.S. economists in the IGM Economic Experts Panel found that none of them agreed with a claim that a return to the gold standard would result in "price-stability and employment outcomes that would be better for the average American." The panel of polled economists included past Nobel Prize winners, former economic advisers to both Republican and Democratic presidents, and senior faculty from Harvard, Chicago, Stanford, MIT, and other well-known research universities.

Jeremy Boreing @JeremyDBoreing
Shutting down private businesses is overreach. Shutting down restaurants in a city of four million people is criminal. There are hundreds of thousands of people who don't have food at home, don't know how to cook... grocery stores aren't built to feed 100% of us 100% of the time.
